

# Marine Renewables Canada 2026 Conference & Exhibition: *Powering Canada's Clean Energy Future*

## ABOUT MRC2026

Join us in the nation's capital, Ottawa, on November 17-19, 2026 for the only national conference dedicated to tidal, offshore wind, wave, and river current energy - bringing together industry leaders, innovators, policymakers, researchers, Indigenous partners, and communities working to unlock Canada's vast marine renewable energy potential.

### MRC2026 will include:

- Industry leadership and sector progress
- Market outlook and global opportunities
- Policy and regulatory insights
- Indigenous leadership and partnerships
- Research and innovation sessions
- Supply chain and industry exhibition
- Member-only workshops
- Networking and partnership building

## THE PAVILION

Following the success of the Indigenous Business Pavilion at the 2025 Conference, MRC is pleased to continue this initiative in 2026. The Pavilion recognizes and supports the Indigenous leadership, innovation, and entrepreneurship that are vital to a sustainable energy future.

**The Indigenous Business Pavilion is an inclusive space within the exhibition where Indigenous-owned businesses can connect with industry leaders, showcase their expertise, and explore opportunities in Canada's growing marine renewable energy sector.**

The Pavilion offers visibility and access for up to 7 Indigenous businesses and/or organizations at a discounted rate of **\$1,000 + HST**, helping ensure meaningful participation in the Conference exhibition.

### Registration includes:

- Shared exhibition space within the Indigenous Business Pavilion (10' x 30' total shared area)
- Space for one small pop-up banner and the opportunity to display materials, project information, or business offerings
- **NEW THIS YEAR** - One (1) full conference pass included with registration (\$1,200 value)
- Access to key conference events, including networking receptions and B2B meeting opportunities
- Company logo and profile listed on the conference website and event app
