ABOUT MRC2026

November 17–19, 2026 | The Westin, Ottawa, Ontario

Theme: Powering Canada's Clean Energy Future

Canada's only national conference dedicated to tidal, offshore wind, wave, and river current energy.

Join us in the nation's capital for the only national conference dedicated to tidal, offshore wind, wave, and river current energy. Over three dynamic days, participants will explore the policies, partnerships, technologies, and investments shaping the marine renewable energy sector through expert panels, technical sessions, and networking events.

Dates	November 17–19, 2026
Location	The Westin Ottawa, Ottawa, Ontario
Theme	Powering Canada's Clean Energy Future
Register	https://marinerenewablesconference.ca
Tag us	https://www.linkedin.com/company/marine-renewables-canada/

Why it matters

Under the theme *Powering Canada's Clean Energy Future*, the conference will explore how marine renewables can strengthen Canada's energy system, drive economic growth, and accelerate the global energy transition. With the Sector Vision 2050 projecting an estimated $12 billion in GDP from construction activity alone and more than 115,000 jobs, this is where the ideas, partnerships, and momentum come together to turn opportunity into action.

What's on the agenda

- **Industry leadership & sector progress:** Highlights of Canadian achievements, milestones, and momentum from the people leading the sector.
- **Market outlook & global opportunities:** Exploration of emerging markets and investment opportunities at home and internationally.
- **Policy & regulatory insights:** Updates on government initiatives, regulatory frameworks, and policies enabling growth.
- **Indigenous leadership & partnerships:** Discussions on Indigenous participation, perspectives, and opportunities across the sector.
- **Research & innovation sessions:** A dedicated technical track featuring cutting-edge offshore wind, tidal, wave, and river current work.
- **Supply chain & industry exhibition:** A dynamic showcase of technologies, services, and expertise supporting marine renewable energy.
- **Member-only workshops:** Exclusive pre-conference sessions focused on industry development and business growth.
- **Networking & partnership building:** B2B meetings, an international delegate program, and receptions to spark new partnerships.

HOW TO USE THIS KIT

Each section below is written for a specific audience. Choose the version that fits you best, copy the text, and swap in any bracketed placeholders. We encourage you to make it your own - add a personal note, tag a colleague, or share why you're excited about Ottawa this November!

This November, Canada's marine renewables community will gather in Ottawa — will you be there?

The Marine Renewable Energy 2026 Conference & Exhibition (MRC2026) is Canada's premier national event dedicated to tidal, offshore wind, wave, and river current energy. Bringing together industry leaders, innovators, policymakers, researchers, Indigenous partners, and community representatives, MRC2026 serves as a forum for collaboration, knowledge sharing, and advancing Canada's marine renewable energy sector.

Under the theme “Powering Canada’s Clean Energy Future,” MRC2026 will feature three days of expert panels, technical and research sessions, and networking opportunities. The program will explore the policies, partnerships, technologies, and investments driving growth across the sector and shaping the future of marine renewable energy in Canada.
